

WELD EXCEL FOR EXCELLENT WELDS

THYRISTOR WELDER SERIES

EXCEL ARC 400T

SALIENT FEATURES

- * Using thyristor module rectifier with mains voltage fluctuations compensation, current stabilization and maintenance free.
- * Provide with arc force and hot start for easy re-striking and good welding performance.
- * Adopt advanced welder manufacturing, high efficiency, saving energy, upright welding and high duty cycle, suitable for continuous and long working life.
- * Ripple free DC output gives excellent weld quality.
- * Widely used for steel structure, petrochemical, shipbuilding and heavy fabrication.

TECHNICAL PARAMETERS

Input power voltage(V)	AC415(Three Phase) \pm 10%	Open Circuit Voltage(V)	100
Rate input power (KVA)	21.54	Duty cycle (10 min)	60%
Rated input current(A)	30	Insulation Class	H
Input voltage frequency(Hz)	50	Protection Class	IP23
Output current range(A)	30-400	Weight(KG)	125

*In view of continuous development, Weld Excel India Ltd. reserves the right to modify/change the design or the specification without any prior notice.
