

WELD EXCEL FOR EXCELLENT WELDS

THYRISTOR WELDER SERIES

MODI MIG 400T

SALIENT FEATURES

- * Using thyristor module rectifier with mains voltage fluctuations compensation, current stabilization and maintenance free.
- * Provide with arc force and hot start for easy re-striking and good welding performance.
- * Adopt advanced welder manufacturing, high efficiency, saving energy, upright welding and high duty cycle, suitable for continuous and long working life.
- * Wide output current range, suitable for all kinds of electrodes/wires to weld, low and middle carbon steel, alloy steel and stainless steel.
- * Widely used for steel structure, petrochemical, shipbuilding and heavy fabrication.

TECHNICAL PARAMETERS

Input power voltage(V)	AC415(Three Phase) \pm 15%	Output current range(A)	50-400
Rate input power (KVA)	23	Duty cycle (10 min)	60%
Rated input current(A)	32	Insulation Class	H
Rated output voltage(V)	39	Protection Class	IP23
Input voltage frequency(Hz)	50	Weight(KG)	190

*In view of continuous development, Weld Excel India Ltd. reserves the right to modify/change the design or the specification without any prior notice.
